DETAILED ACTION

Double Patenting

1. Claims 1, 3-8, 11-15 and 18 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-16 of copending Application No. 10/658,545. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-18 are generic to all that is recited in claims 1-16 of the copending application. That is, claims 1-18 are anticipated by claims 1-16 of the copending application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

2. Applicant's arguments filed 9/26/08 have been fully considered but they are not persuasive. Applicant's arguments filed 9/26/08 have been fully considered but they are not persuasive. Applicant argues that the obviousness double patenting rejection is not based on anticipation rationale because the Examiner stated that the "conflicting claims are not identical." The examiner disagrees. According to MPEP(II)(B)(1), a nonstatutory obviousness type double patenting must be made if the claimed invention is anticipated by the copending application albeit the claims are not the identical. Since the claimed invention is covered or encompassed by the claims of the copending application, the obviousness type double patenting rejection is proper. For instance, the invention as now amended in claim 1 is still met by claims 1 and 2 of the copending

application. Since the invention is narrower in claim 1 of the instant application than the claim 1 of the copending application, it cannot be considered as the base invention but an improved invention over the copending application. In order to overcome the obviousness type double patenting rejection, a Terminal Disclaimer must be filed.

Conclusion

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
